

AAYUSH SIRWAIYA

MERN Stack Developer | Frontend Developer | Drupal Developer

Indore, Madhya Pradesh, India | +91 9111424484 | aayushsirwaiya22@gmail.com | [LinkedIn: Aayush Sirwaiya](#)

PROFESSIONAL SUMMARY

Full Stack Developer with 1.5+ years of hands-on experience building production websites and web applications end-to-end, spanning custom MERN stack development (React.js, Node.js, Express.js, MongoDB) and CMS-driven platforms (Drupal, WordPress). Skilled at translating business and client requirements into responsive, reusable frontend components, and comfortable owning projects independently from discovery and architecture through delivery. Experienced in RESTful API development, JWT authentication, cross-browser responsive design, and coordinating with cross-functional and client teams in Agile environments.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Tailwind CSS, jQuery, Responsive Web Design

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, CRUD Operations

CMS Development: Drupal (Paragraph Types, Site Building, Theming, Content Types, Views), WordPress

Database: MongoDB, SQL, MySQL

Tools & Practices: Git, GitHub, VS Code, Postman

PROFESSIONAL EXPERIENCE

Drupal & Frontend Developer | Codernaline LLP

July 2025 – Present

- Design and develop client websites end-to-end, covering discovery, information architecture, visual direction, and responsive layout implementation.
- Build reusable Drupal Paragraph Types and develop their frontend presentation using HTML5, CSS3, and JavaScript, reducing rework across projects with similar content needs.
- Build responsive, cross-browser interfaces and reusable UI components deployed across multiple production client projects.
- Manage multiple concurrent client projects through development and delivery, coordinating with internal teams to implement requirements on schedule.

Full Stack Developer Intern | Ypsilon IT Solutions Pvt Ltd

November 2024 – April 2025

- Developed full-stack web applications using React.js, Node.js, Express.js, and MongoDB (MERN stack).
- Built and integrated RESTful APIs, CRUD operations, and JWT-based authentication workflows.
- Developed responsive React.js components and participated in Agile ceremonies, including sprint planning, code reviews, and daily standups.

SELECTED CLIENT PROJECTS

Velora — Social Discovery Platform | [View Live Site](#)

- Design designed and developed the web experience from scratch, researching social and location-based platforms to define structure, visual direction, and interaction patterns.
- Implemented interfaces for community discovery, circles, local experiences, maps, activities, and mobile-focused interactions.

UCDC — University of California Washington Center (Drupal) | [View Live Site](#)

- Designed reusable Drupal Paragraph Types from scratch and developed their frontend presentation using HTML5, CSS3, and JavaScript.
- Implemented responsive layouts, component styling, visual hierarchy, and interactive behaviors within Drupal.

DB United — B2B Luxury Resale Platform | [View Live Site](#)

- Designed and developed a premium B2B luxury resale website based on business requirements and dedicated market research.
- Implemented product and brand showcases, partner application flows, lead-generation sections, FAQs, newsletter functionality, and responsive layouts.

KarMeh Design Studio — Interior & Architectural Design | [View Live Site](#)

- Designed and developed a design-studio website, establishing visual structure, hierarchy, and responsive layouts tailored to a portfolio-driven audience.
- Built portfolio-focused pages including project presentations, services, galleries, testimonials, and contact/lead-generation elements.

EDUCATION & CERTIFICATIONS

B.Tech, Automation & Robotics Engineering | 2020 – 2024

Prestige Institute of Engineering Management & Research (PIEMR), Indore

- MERN Stack Technology Training — Universal Informatics
- Full Stack Development Internship Completion Certificate — Ypsilon IT Solutions Pvt Ltd
